Office Action Summary	Application No. 10/628,140	Applicant(s) GREIWE ET AL. 	
	Examiner Nini F. Legesse	Art Unit 3711	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Specification

The abstract of the disclosure is objected to because it is over 150 words.

Correction is required. See MPEP § 608.01(b).

For Clarification Purpose Only

With regards to the content of claim 4, please note that a Patent is granted to an individual for a specific intellectual property right to exclude others from making, using, offering for sale, selling, or importing the invention for a term that is normally set at 20 years from the application's earliest effective filing date. However, a patent cannot protect and stop other inventors from modifying the structure or the method of playing an existing patented invention as Applicant has stated in this claim.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure, which goes to make up the device, must be clearly and positively specified. The structure must be organized and correlated in such a

Art Unit: 3711

manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited (for example US Patent No. 5,056,796 to Conville).

Please note that since it is not clear if Applicant is intending to claim the apparatus or the method of using the apparatus, for purpose of examining the application, the claims are assumed to be apparatus claims. And for example, the claim limitations like "the rules of the game/methods of scoring" in claim 2 and "the five rules/methods of scoring" in claim 3 are considered as intended use.

AS BEST UNDERSTOOD THE CLAIMS ARE REJECTED BELOW AS STRUCTURE CLAIMS.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Conville (US Patent No. 5,056,796).

As best understood, all the structural limitations of the claims are met with the Conville's reference because Conville provides tossing game devices (20) that is

Art Unit: 3711

capable of being played outdoors/indoors. Conville also provides game boards (36) and game bags (32). However, the limitations like the "game/methods of scoring" or the "rules" that are stated in claims 2 and 3 respectively are the intended use of the structure and it should be noted that the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. Therefore, as the claims are best understood, Conville meets all the structural limitations of the claims.

With respect to claim 4, this claim does not provide structure that further limit the other claims.
